

How making copies of the cards on this website can help the parents in your church **BE BIBLE PARENTS**

Bible outs are like time outs, except you give the child a Bible Verse to memorize while he is on his "out". Bible outs are, however. NOT the only way parents can use God's word in raising children. The following four thoughts can be a real help in making a parent's life easier while helping your children get through childhood with a faith that grows stronger with each verse they are given. As a parent it is the least you can do. We pray that visiting www.biblehome.org becomes a HABIT your church can't break.

Using Bible Verses for Correction. The only way to give a child a bible verse when he needs it most is to carry them with you. Making copies of the following four pages and carrying some bible memory verses with you mean that instead of time outs you are prepared to give your children "Bible Outs". We have chosen verses on love and the Holy Spirit because Love is the most correct thing of all and because no one can behave without the help of the Holy Spirit. *Helping a child become sensitive to God's Holy Spirit and to love will make your job as parent much much much easier.*

Using Bible Verses for Comfort. Never before in the History of the Church or our country have children been in such NEED of comfort. Never before have exhausted parents had so little to give. The female child of divorce has her life shortened 2.4-4 years, the male child 4-10 ("The Costly Consequences of Divorce by Dr.'s David and Susan Larsen.) School bullies, peer pressure, media pollution, drugs and other stresses outside the home make stress inside the home even more unbearable. BIBLE VERSES CAN BE A BIG HELP, especially the verses on comfort, joy and fellowship. All are available at www.bibleparent.com. For our coloring book however we have chosen a set of verses on fear, the one thing ALL children have in common all the time.

Using Bible Verses for Character Remember Eddie Haskell, Wally's polite friend on "Leave it to Beaver". Many of your children's friends are 100 times as bad as Eddie, drugs, sex, violence etc.. A simple Bible memory card every time your child leaves the house could be the one thing to insure you never read another story about A GOOD CHILD GONE BAD. Offer your children's friends "one for the road" as they leave your home. Influencing your children's friends BEFORE they influence your children is a very very good idea.

Using Bible Verses for Protection SIN ABOUND. It is on the TV, in music and especially on the internet. We hope you will join us in making copies of our little Bible Memory Cards and putting a bowl by your computer, tv or both and INSIST that the children memorize one verse for every ½ hour they are watching tv or online. We may never WIN the war against the television/music/internet MUCKATHON but we must **TRY**. Bible memory cards are a good start.
